1.0 EXECUTIVE SUMMARY

1.1 <u>Program Summary</u>

In November 2004, voters of the City of Los Angeles passed the Proposition O – Clean Water Bond, authorizing \$500 million of general obligation bonds for projects to protect public health by cleaning up pollution in the City's rivers, lakes, and beaches. The projects are intended to assist the City of Los Angeles in meeting Federal Clean Water Act requirements. Proposition O – Clean Water Bond will also fund improvements to protect water quality, provide flood protection, increase water conservation, provide habitat protection, and create open space.

This monthly progress report summarizes the status of activities and progress of the Proposition O – Clean Water Bond program for September 2023.

1.1.1 <u>Citizens Oversight Advisory Committee (COAC), Administrative Oversight Committee (AOC), and</u> <u>Other highlights</u>

AOC approved the following on March 31, 2022:

- 1. Approved funding for the following projects:
 - Taylor Yard G2 Quality Improvements Project \$4 million increase from \$16.4 million to \$20.4 million.

4.0 PROJECT STATUS REPORT

4.1 Project Status Report

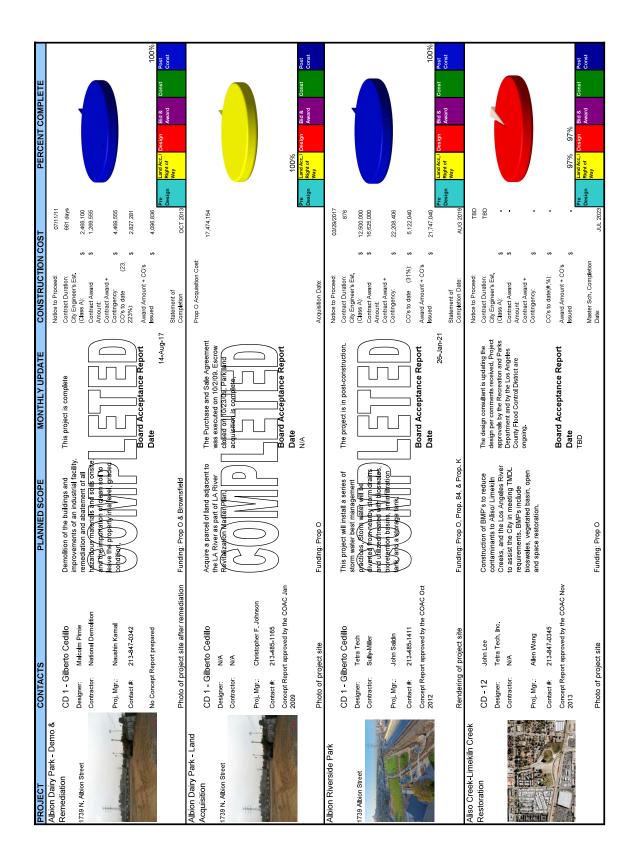

A brief status report for each project is provided on the following pages. The report identifies key project information, the planned scope of work, progress date, updated construction costs and percentage complete for all Proposition O projects.

The Percentage Complete at the far right hand column of the diagram uses a color-coding system to designate the current phase of each project.

Turquoise	Pre-Design
Yellow	Right of Way Acquisition/ Land Acquisition
Red	Design
Violet	Bid and Award
Green	Construction
Blue	Post Construction

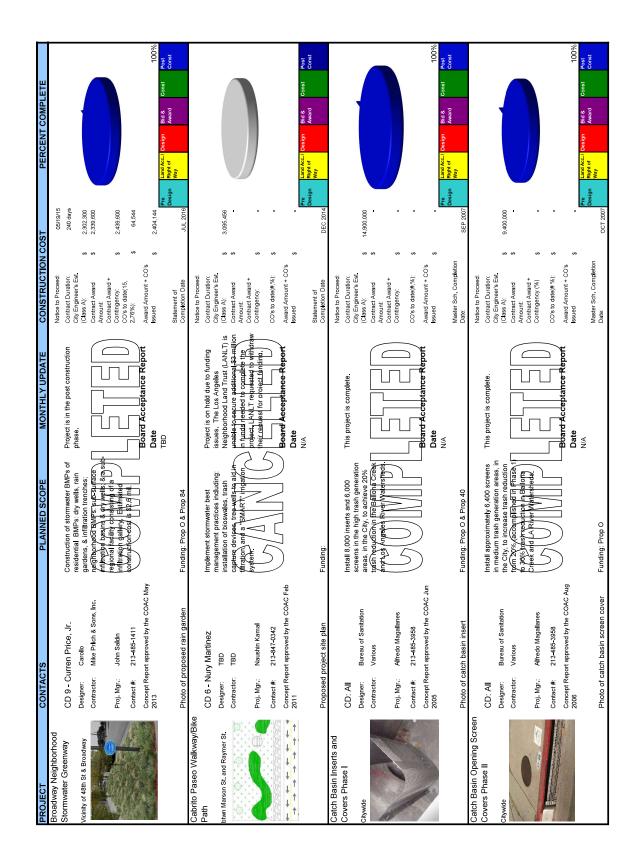

Progress for each project is tracked by a color-coded pie chart. The color-coding system shows work completed in the darker shade of each color and the lighter shade denotes work to be completed. For example, if a project is in design the pie chart begins as light red. As progress is made, a darker red will indicate the approximate percentage of design work completed to date.

	Ecology Control Industries selected as contractor and negotiations have begun.		
	 Completed the field evaluation of 250 catch basins in the Machado Lake watershed for feasibility of curb opening screen covers or insert installation. 		
	 Completed the field evaluation of 1,150 catch basins in the Dominguez Channel watershed for feasibility of curb opening screen covers or insert installation. 		
	 Completed the field evaluation of 1,200 catch basins in the Santa Monica Bay watershed for feasibility of curb opening screen covers or insert installation. 		
	Completed 68 inserts in the Civic Center high trash area.		
	 Catch basin retrofits in the Machado Lake watershed and Trash TMDL Receiving Water Monitoring Protocol: Notice to Proceed was given on March 29, 2016 to TRC Solutions and G2. Construction for the amount of \$300,000. Catch Basin retrofits to commence on May 2, 2016. 		
	 A Request for Proposals to establish a contract for the fabrication and installation of curb opening screen covers was advertise on December 2015, 2 proposals were received January 2016, and currently being reviewed by the Bureau of Contract Administration for BIP adherence. Anticipate contract start date late Summer or early Fall 2016. 		
Phase IV	 The project construction and post-construction is complete. The original project budget was \$6,160,000.00 and total expenditures were \$4,579,245.89 with a total project savings of \$1,580,754.11.

Subject **PROPOSITION O MASTER SCHEDULE UPDATE FOR 2023-2024**

Recommendation

Approve four modified project schedules, five project additions, and six project close outs as shown in the Proposition O Master Schedule (Attachment) and described in this correspondence.

Four Projects with Modified Schedules

Aliso Creek – Limekiln Creek Restoration Project:

It is recommended that design phase completion schedule, from December 2014 to January 2022, be extended by 23 months to end in December 2023. This will extend bid and award completion to June 2024, construction completion to September 2026, and post construction completion to September 2027.

The time-extension is required to update the design and complete maintenance and landuse agreements with LA County and the Department of Recreation and Parks.

Argo Drain Sub-Basin Facility

It is recommended that post-construction phase completion schedule, from July 2022 to February 2023, be extended by nineteen (19) months to end in September 2024.

The time extension is required to complete post construction activities including obtaining Building and Safety certificates and Board Acceptance.

Rory Shaw/Strathern Wetlands Park

It is recommended the design phase be extended to December 2025, the bid and award phase completion be extended to August 2026, the construction phase completion be extended to September 2028, and the post-construction phase completion be extended to September 2029.

LA County, which controls the schedule of this project, has recommended these changes to the schedule. The schedule has been extended due to on-going design challenges and the existence of unsuitable soil at the site and also to reflect completion of all phases of the project, including Phase 3 above grade improvements.

Taylor Yard G2 Water Quality Improvements

It is recommended that that the pre-design phase completion schedule, from July 2021 to July 2022, be extended by sixteen (16) months to end in November 2023. This will extend the design completion to May 2025, the bid and award completion to October 2025, the construction completion to January 2028, and post-construction completion to July 2028.

The time extension is required due to additional time that was required to procure design services for the project in 2022-23 and additional time required to assess contamination on the site.

Project Additions

Ballona Creek TMDL

This project was approved by City Council on May 19, 2021.

Hollenbeck Park Lake

This project was approved by City Council on May 19, 2021.

<u>Lincoln Park Neighborhood Green Street Network</u> This project was approved by City Council on May 19, 2021.

<u>Machado Lake Rehabilitation Optimization</u> This project was approved by City Council on April 26, 2021

<u>Westwood Neighborhood Greenway SCADA</u> This project was approved by City Council on June 28, 2022.

Project Close Outs

Post construction phase is complete on the following three projects:

- Ben & Victory Green Stormwater Infrastructure
- Catch Basin Inserts & Opening Screen Covers Phase IV
- Machado Lake Ecosystem Rehabilitation
- Mar Vista Recreation Center Stormwater BMP Phase II
- Vermont Avenue Stormwater Capture
- Westwood Neighborhood Greenway
